

MESSIER-DOWTY

Your worldwide partner in landing gear

ORGANISATION & MANAGEMENT

Messier-Dowty is the world's leading landing gear manufacturer, offering customers the benefits of experience, skills and resources that are unrivalled in the industry. With manufacturing facilities on both sides of the Atlantic and customer support worldwide, we are truly an organisation for today and the future.

A MAJOR FORCE – GEARED TO CUSTOMERS' NEEDS

Messier-Dowty brings together in one entity the powerful combination of skills and resources of two of the world's leading specialist manufacturers of landing gear – Messier-Bugatti and Dowty Aerospace – well established on both sides of the Atlantic and backed by the strong parentage of the SNECMA Group of France and TI Group of the UK.

This joint venture is a major commitment to our future. With financial strength, a strong technology base, wide range of products and first class customer service, we are ideally positioned to continue to meet the needs of our industry and to support major new programmes worldwide.

A global company for a global market

Our combined resources in Canada, France and the UK, with around 2,300 employees, have the design, manufacturing and support facilities to provide our customers with a truly global capability, covering landing gears for every size of aircraft.

Messier-Dowty is an outstanding international team – benefiting from a combined total of over 125 years' experience – managed by highly experienced industry professionals.

Working in partnership worldwide

Messier-Dowty is a world-leading organisation with the resources to work in partnership with customers throughout the world.
