

# MESSIER-DOWTY

Your worldwide partner in landing gear

## PROGRAMMES & PRODUCTS

*Messier-Dowty's customers benefit from the experience gained from working on major aircraft programmes with leading manufacturers over many decades. Our expertise – from helicopters through to one of the largest commercial aircraft – is endorsed by the fact that more than 20 of the world's major aircraft manufacturers put their trust in us.*

# QUALITY PROVEN – OVER 20,000 TIMES A DAY

Messier-Dowty's landing gears are operational daily on over 14,000 aircraft that are currently in service throughout the world. They make over 20,000 landings every day – a real testimony to the quality and reliability of our products.

We design and manufacture a wide range of landing gears to suit all sizes of aircraft (5 to 270 tonnes), from the smallest through to one of the world's largest landing gear in service.

This broad expertise, based on our unique integration experience, enables us to provide sophisticated fully-dressed landing gear systems – completely ready to install.

## Current programmes

Our broad base covers over 20 of today's major aircraft manufacturers. Current programmes include:

### Commercial aircraft

- Airbus A300, A310, A319, A320, A321, A330 & A340
